MOODLE

Moodle

MOODLE is a free software e-learning platform. Moodle allows educators to create online courses, which students can access as a virtual classroom. A typically Moodle home page will include a list of participants (including the teacher and students) and a calendar with a course schedule and list of assignments. Other Moodle features include online quizzes, forums, where students can post comments and ask questions, glossaries of terms, and links to other Web resources.

As Moodle is a Web-based application, students can log in any time from home or elsewhere. To log in, students will be asked to use their Unipd e-mail account (provided during the enrollment: name.surname@studenti.unipd.it) and to complete the procedure, they will be given a password to enter.

Reach your Moodle course platform at <http://psicologia.unipd.it/servizi/moodle>.
